

SUSTAINABILITY MANAGEMENT

We embrace sustainability and work towards embedding it throughout our entire value chain. KMG is also striving to meet the highest safety and corporate governance standards. Our Development Strategy until 2028 relies on continuous improvement of the system of governance that promotes better corporate social responsibility, health, safety and environmental protection; enhances regional economic impact and anti-corruption efforts; better relations with stakeholders; and improves corporate governance, corporate culture, corporate ethics, and compliance ratings.

KMG's corporate social responsibility policy fosters development across our operating regions. We promote meritocracy, fairness, and integrity while providing every employee with a workplace conducive to new achievements and assessing their respective contributions to KMG's overall success based on merit. We also foster a culture of understanding, engagement, and support among our employees at all levels.

MANAGEMENT SYSTEM

To ensure transparency of its activities for stakeholders, KMG publishes annual Sustainability Reports. KMG's sustainability reporting is guided by the Global Reporting Initiative's (GRI) Standards.

KMG's Sustainability Report is available on the Company's website
